

Marimi Lamont Taylor

FULL STACK SOFTWARE DEVELOPER

☎ (336) 485-5640 | ✉ mlamont8@hotmail.com | 🌐 [linkedin.com/in/mlamont8](https://www.linkedin.com/in/mlamont8)

Skills

Front End & UI/UX	HTML, CSS, React, TypeScript, JavaScript, Figma, Unit Testing, End to End Testing
BackEnd & APIs	NodeJs, Django/Python, MySQL, PostgreSQL, Snowflake
Cloud & Infrastructure	Google Cloud Platform (GCP), Amazon Web Services (AWS)
Observability & Analytics	Sentry, Mixpanel, LaunchDarkly (feature flags, A/B testing)

Experience

ZenBusiness

Remote

FULL STACK DEVELOPER

Nov 2021 - Aug 2025

- Delivered scalable, user-focused solutions across the stack by building customer-facing features, backend services, and microservices.
- Partnered with product and design teams to improve usability while strengthening application performance, observability, and reliability.
- Implemented pixel-perfect Figma designs into frontend features using React, TypeScript, JavaScript, GraphQL, and Material UI, driving improved user experience and engagement.
- Ensured code quality and functionality with vigorous unit testing with Jest and end-to-end testing with Playwright and Cypress.
- Built and maintained backend services and microservices with Node.js, Python, Django and PostgreSQL, improving data accessibility and operational efficiency.
- Implemented log monitoring, metrics reporting, and alerting in Google Cloud (GCP), and leveraged Kubernetes for troubleshooting and ensuring system reliability.
- Enhanced observability and analytics by enabling Sentry alerts, Mixpanel dashboards, and Snowflake analysis, supporting error detection, feature flagging for data-driven decisions and improvements.
- Drove product enhancements by configuring LaunchDarkly feature flags, running controlled experiments and A/B testing while analyzing outcomes.
- Contributed to Agile sprints by participating in ceremonies, code reviews, pair programming, and knowledge sharing, strengthening collaboration and engineering standards.
- Served in team on-call rotation, handling and prioritizing issues, and occasionally acted as engineering triage lead to assign ownership, determine priority, and escalate customer-impacting incidents.

Freelance

Greensboro, NC

FRONT END & FULL STACK SOFTWARE DEVELOPER

Jan 2016 - Nov 2021

- Developed and streamlined robust web applications with React and NodeJS for remote clients that significantly improved user experience and operational efficiency.
- Utilized ReactJs and Node Express to create responsive and efficient interfaces, boosting user retention.
- Implemented new features using Go for select clients improving user engagement for front end clients.
- Gained hands-on experience with AWS EC2, S3, CloudFront and Route 53 enhancing application scalability and reliability.

Education

North Carolina A&T State University - Junior

Greensboro, NC

B.S. IN INFORMATION TECHNOLOGY

May 2021 - May 2023

- Courses include Web Development, Python, Java, Cisco CCNA Networking

Certifications

AWS Certified Cloud Practitioner

Greensboro, NC

AMAZON WEB SERVICES (AWS)

Nov 2020

- Issued Nov 2020 - Expired Nov 2023
